

ABUZAFAR GHAFARI

Senior Full Stack Developer

New Delhi, India | 9310762394 / 7042188831 | abuzafarghaffari@gmail.com | linkedin.com/in/abuzafar-ghaffari-97751046/

SUMMARY

Senior Full Stack Developer with 8+ years of experience building scalable web applications, healthcare platforms, enterprise API integrations, and reusable UI components. Skilled in React.js, Next.js, Node.js, Express.js, TypeScript, REST APIs, GraphQL, MongoDB, SQL, Azure, Docker, CI/CD pipelines, Jest, and Vitest. Strong experience in frontend-backend integration, secure API delivery, performance optimization, debugging, and production support. Beginner-level exposure to LangChain and GenAI application development.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Next.js App Router, JavaScript ES6+, TypeScript, HTML5, CSS3, Redux, Material UI, responsive UI, reusable components

Backend: Node.js, Express.js, REST APIs, GraphQL, API integration, backend services, authentication, authorization, role-based access

Database / Cloud / DevOps: MongoDB, SQL, Azure, Docker, Git, GitHub, GitLab, Jira, Swagger, Postman, CI/CD pipelines

Testing / GenAI: Jest, Vitest, automated testing, beginner exposure to LangChain, Runnable workflows, prompt handling, LLM application flow

PROFESSIONAL EXPERIENCE

Senior Consultant | Emids Technologies Pvt Ltd | Sept 2024 - Present

- Built scalable healthcare platform modules using Next.js, React.js, Node.js, Azure, GraphQL, and REST APIs for enterprise healthcare systems.
- Developed CenterWell.com features for doctor search, doctor appointment booking, and pharmacy search for Humana insurance users in the US.
- Integrated secure APIs, created reusable UI components, improved frontend/backend performance, and supported production-ready delivery with cross-functional teams.
- Supported debugging, API validation, automated testing, technical coordination, and performance fixes for stable enterprise releases.

Senior Software Engineer | Kellton Tech Solutions Ltd | Nov 2022 - May 2024

- Developed frontend and backend modules for ONDC, group booking, and real estate platforms using React.js, Node.js, REST APIs, SQL, and MongoDB.
- Built optimized APIs for buyer-seller transactions, booking flows, listings, approvals, and business operations, and integrated them with React.js modules.
- Created reusable UI components, improved frontend consistency, supported automated tests, and delivered performance improvements for stable releases.

Engineer | Ericsson India Global Services Pvt Ltd | Jan 2017 - Nov 2022

- Built internal tools, dashboards, and APIs for KPI reporting, diagnostics, system execution logs, monitoring, and production issue analysis.
- Improved reliability by optimizing backend processing, troubleshooting system issues, supporting root-cause analysis, and automating repetitive operations.

Fault Management Engineer | Nokia Service Network Pvt Ltd | Feb 2015 - Jan 2017

- Monitored telecom network faults, supported incident resolution, prepared status updates, and coordinated with technical teams to reduce service impact.

SELECTED PROJECTS

- CenterWell.com Healthcare Web App:** Developed doctor search, doctor appointment booking, and pharmacy search capabilities for Humana insurance users in the US, with API integration, reusable UI components, and healthcare-focused workflows.
- ONDC Platform:** Built frontend and backend modules for India's ONDC ecosystem, supporting buyer-seller transaction workflows through React.js, Node.js, and REST API integration.
- Adani Group Booking System:** Designed and developed group travel booking, quotation workflows, reusable React.js components, and backend API integration for booking-related business features.
- Adani Real Estate Platform:** Developed Admin, Agent, and User portals with role-based access, listing management, booking, approval workflows, and user action management.
- Internal Monitoring and KPI Tools:** Built dashboards and backend utilities to improve log visibility, diagnostics, operational reporting, and faster issue investigation.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering, Electronics & Communication (2005) | AWS Certified Solutions Architect - Associate

CAREER HIGHLIGHTS

- Full stack delivery experience across healthcare, ONDC, booking, real estate, telecom monitoring, and enterprise API systems.
- Hands-on experience with requirements understanding, API debugging, reusable component design, production issue support, and delivery coordination.
- Worked on end-to-end feature delivery, from requirement understanding and API contract review to frontend integration, testing, debugging, and release support.
- Comfortable working with enterprise workflows, healthcare data flow, authentication/authorization concepts, REST and GraphQL integrations, and production issue analysis.
- Strong practical knowledge of JavaScript, TypeScript, React component design, Next.js routing patterns, Node.js services, and database-backed API development.
- Used Swagger and Postman for API testing, Git/GitHub/GitLab for source control, Jira for task tracking, and Docker basics for local development workflows.
- Able to work independently on assigned modules while coordinating with UI, backend, QA, DevOps, and business teams for timely delivery.
- Currently strengthening backend, DevOps, Azure CI/CD, AWS architecture, and GenAI application development skills for advanced full stack roles.
